Sobinco
OPENS YOUR LIFE

INSPIRING COLOURS

THE SOBINCO COLOUR RANGE

At Sobinco, we finish all our products completely in-house in our **state-of-the-art anodising and coating department**. This gives us **complete control of the quality** of our products from A to Z. Depending on the raw materials used, the products are either anodised or polyester powder coated.

Please always indicate which finish you want when you place your order by adding the relevant code to the article number.

FLEXIBILITY AND CUSTOMER FOCUS

For large quantities, Sobinco will do its utmost best to obtain the exact colour you require based on your own sample or a specific colour code. This applies both to powder coating and anodising. Customer focus has high priority at Sobinco, and we will do everything possible to meet your requirements.
