# Top-V

Fan light systems for bottom and top hung windows

---

## DESCRIPTION

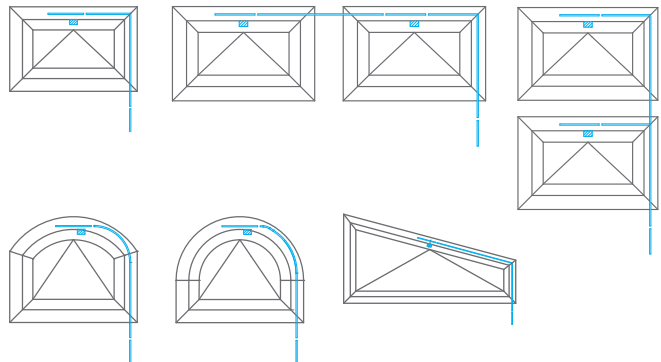

Powerfull surface-mounted remote control system Top-V for bottom and top hung windows with **elegant design assures the tightness** of the window.

## CHARACTERISTICS

- All types are **suitable for installation on aluminium, PVC or timber windows**.
- **There is a set available for all window types:** straight window, sloping head window, round and arched window, if desired in combination with a sill transmission. A set is also available for an additional bottom and top hung window installed side by side or one above the other.
- All parts of the remote control system are manufactured from **non-corroding materials**.
- Finish:
  - Handle, link arm and cover sections in aluminium anodised or polyester powder coated in a choice of **more than 450 RAL colours**.
  - The U-shaped cover sections are available in lengths of 3 or 6 m.
  - Rods in aluminium anodised, steel zinc plated or stainless steel and available in lengths of 1, 2 or 3 m.
- To get around sills, there is a flexible sill transmission with cable or a sill transmission with bar available.
- **Operating devices:**
  - handle
  - fixed winder, with horizontal or vertical winding gear
  - loose winder, with horizontal or vertical winding gear
