# Modular door pull

with narrow handle

---

**Sobinco**  
OPENS YOUR LIFE

## DESCRIPTION

With this **innovative, modular solution** any **custom-made door pull** can be created in a fast and easy way. A clickable cover conceals the fixation of the door pull for an aesthetic result.

## CHARACTERISTICS

Cross section dimensions of the door pull: 17 mm x 70 mm.

The door pull is available in **3 different lengths**:

- 2350 mm.
- 2750 mm.
- 3100 mm.

## MATERIALS

- Aluminium core profile.
- Aluminium cover profile.
- Aluminium covers.
- Aluminium grip.
- Stainless steel fixing screws (TX25).
- Stainless steel assembly screws.

## FINISHES

- **Powder coated** in 450 RAL colours for all pull lengths.
- **Anodisation:**
  - Natural anodisation available for all pull lengths.
  - Colour anodisation only available for 2350 mm pulls.

## TESTS & RESULTATS

- **Cycle test:** 200.000 cycles.
- **Corrosion resistance:** class 5, 480 hours.

## USE

- For swing doors, open in and open out doors.
- For rebated doors and flush doors.
- Can only be installed on a panel-covered vent.
